PANEL DISCUSSION: The Flipped Classroom: What's Next?

Monday 03 Jun 2013 at 11:15 (01h00')

Content :

You already know about the flipped classroom; you may very well be implementing it in your school or district. But why are you doing it? What are you learning and where do you want to take flipping in the future? Join Jon Bergmann and a few invited panelists for a lively discussion about best practices and the underlying reasons why the flipped classroom is transforming teaching and learning across the globe. This interactive session will feature a "panel" discussion in which audience members are key contributors, participating verbally and via their devices.

Primary authors : BERGMANN, Jonathan (Flipped Class)
